As we have mentioned before, it is practically impossible to cope with both part-time job and studying duties. In this tough situation, we, as retired students, took a responsibility to help a new generation and provide young people with quality college and high school homework help that they really deserve.

A prime number (or a prime) is a natural number greater than 1 that cannot be formed by multiplying two smaller natural numbers. A natural number greater than 1 that is not prime is called a composite number. For example, 5 is prime because the only ways of writing it as a product, 1×5 or 5×1 , involve 5 itself. However, 6 is composite because it is the product of two numbers (2×3) that ...
